

# Conversation Starters

## Partners/Community Organizations

Below are talking points to help you highlight the successes of Local Dental Pilot Projects on Twitter and to also help you start a conversation. Remember to use the hashtag **#KeepCASmiling** in all of your posts!

- How have the partnerships developed through your program improved children's access to dental care?
- How does care coordination affect the outcome of a dental visit?
- How has the oral health education offered through your program affected the oral health literacy of the communities that you serve?
- If you had to highlight one component of your program, what would it be and why?
- What programs are you involved in and why are you involved?
- Please share any stories/testimonials from your experience as a Partner to the LDPP's.
- How many people have your agency helped with DTI funding?
